

HEALTHCARE TRUST, INC.

2nd Quarter 2019 Investor Presentation

- Healthcare Trust Inc. (“HTI” or the “Company”) has a \$2.6 billion⁽¹⁾ healthcare real estate portfolio focused on two strong and healthy segments – Medical Office Buildings (“MOB”) and Seniors Housing Operating Properties (“SHOP”)
 - These two segments represent over 90% of HTI’s net operating income⁽²⁾⁽³⁾
- Medical Office continues to be a strong performer within the HTI portfolio, with predictable and stable rent payments along with contractual rent increases
- The Company’s SHOP portfolio is being aggressively managed by our Advisor’s seniors housing management team to enhance the value of this portfolio through:
 - Successful transitions of select triple-net leased seniors housing properties to an operational SHOP structure
 - Monitoring and driving occupancy across the SHOP portfolio
 - Replacing underperforming operators
 - Selective acquisitions and dispositions
- HTI acquired two single-tenant, triple net leased MOBs for approximately \$10 million in Q2 2019
- Additionally, the Company transitioned a property located in Wellington, Florida from a triple-net leased healthcare facility (“NNN”) to its SHOP segment in Q2 2019 (no disposals in Q2 2019)

Deploy Additional Capital

- HTI will continue to focus on the sectors in healthcare that we find most attractive, particularly medical office and seniors housing, and is actively pursuing the acquisition of high-quality properties in these sectors

Actively Manage Assets to Optimize Profitability

Management continues to actively manage the portfolio, which includes:

- Incremental leasing activity
- Transition select triple-net leased properties to an operational SHOP structure
- Replace underperforming managers
- Replace tenants for improved earnings and value

Maintain Strong Balance Sheet

HTI has a conservative leverage profile to support its real estate portfolio:

- Net leverage remains under 40%⁽¹⁾
- In March 2019, HTI amended and restated its existing credit facility
 - Total commitments upsized to \$630 million, a \$65 million⁽²⁾ increase
 - Loan maturity extended five years to 2024, subject to Company's one-year extension option on the revolver portion

(2) As of June 30, 2019, the unused borrowing capacity under the revolving portion of the Credit Facility was \$41 million.

- ✓ Medical office fundamentals remain healthy.
- ✓ Medical office remains an attractive sector with stable cap rates, minimal direct government reimbursement exposure and growing demand from tenants and investors.
- ✓ The Seniors housing sector is expecting some growth in supply, however, acceleration in aging demographics should provide a strong tailwind to this segment along with other Healthcare REIT sectors.
- ✓ We remain cautious on skilled nursing facilities as many operators are facing difficulties with government reimbursements.
- ✓ HTI continues to focus on local markets where supply/demand fundamentals are attractive.

Risk Factors

For a discussion of the risks which should be considered in connection with our company, see the section entitled “Risk Factors” in our most recent Annual Report on Form 10-K filed with the SEC on March 14, 2019.

Forward-Looking Statements

This presentation may contain forward-looking statements. You can identify forward-looking statements by the use of forward looking terminology such as “believes,” “expects,” “may,” “will,” “would,” “could,” “should,” “seeks,” “intends,” “plans,” “projects,” “estimates,” “anticipates,” “predicts,” or “potential” or the negative of these words and phrases or similar words or phrases.

Please review the end of this presentation and the Company’s Annual Report on Form 10-K and Quarterly Reports on Form 10-Q for a more complete list of risk factors, as well as a discussion of forward-looking statements.

Our potential risks and uncertainties are presented in the section titled “Item 1A. Risk Factors” disclosed in our Annual Report on Form 10-K for the year ended December 31, 2018 and updated in our Quarterly Reports on Form 10-Q from time to time. The following are some of the risks and uncertainties, although not all risks and uncertainties, that could cause our actual results to differ materially from those presented in our forward looking statements:

- Certain of our executive officers and directors are also officers, managers, employees or holders of a direct or indirect controlling interest in Healthcare Trust Advisors, LLC (our "Advisor") and other entities affiliated with AR Global Investments, LLC (the successor business to AR Capital, LLC, "AR Global"), the parent of our sponsor. As a result, certain of our executive officers and directors, our Advisor and its affiliates face conflicts of interest, including significant conflicts created by our Advisor's compensation arrangements with us and other investment programs advised by affiliates of AR Global and conflicts in allocating time among these investment programs and us. These conflicts could result in unanticipated actions that adversely affect us.
- Due to a dispute with the developer, we have funded excess development costs at our development property in Jupiter, Florida and have not yet received any rental income from the property. There can be no assurance as to when we will begin to generate cash from this investment, if at all.
- Because investment opportunities that are suitable for us may also be suitable for other investment programs advised by affiliates of AR Global, our Advisor and its affiliates face conflicts of interest relating to the purchase of properties and other investments and such conflicts may not be resolved in our favor, meaning that we could invest in less attractive assets, which could reduce the investment return to our stockholders.
- Although we intend to seek a listing of our shares of common stock on a national stock exchange when we believe market conditions are favorable to do so, there is no assurance that our shares of common stock will be listed. No public market currently exists, or may ever exist, for shares of our common stock and our shares are, and may continue to be, illiquid.
- We focus on acquiring and owning a diversified portfolio of healthcare-related assets located in the United States and are subject to risks inherent in concentrating investments in the healthcare industry.
- If our Advisor loses or is unable to obtain qualified personnel, our ability to continue to achieve our investment strategies could be delayed or hindered.
- The healthcare industry is heavily regulated, and new laws or regulations, changes to existing laws or regulations, loss of licensure or failure to obtain licensure could result in the inability of tenants to make lease payments to us.
- We are depending on our Advisor to select investments and conduct our operations. Adverse changes in the financial condition of our Advisor and its affiliates or our relationship with our Advisor could adversely affect us.
- We are obligated to pay fees, which may be substantial, to our Advisor and its affiliates.

- Our revenue is dependent upon the success and economic viability of our tenants, as well as our ability to collect rent from defaulting tenants, which has and may continue to adversely impact our results of operations, and replace them with new tenants, which we may not be able to do on a timely basis, or at all.
- We may not be able to achieve our rental rate objectives on new and renewal leases and our expenses could be greater than we anticipate, which may impact our results of operations.
- Increases in interest rates could increase the amount of our debt payments and limit our ability to pay distributions.
- Provisions in our revolving credit facility (our "Revolving Credit Facility") and the related term loan facility (our "Term Loan"), which together comprise our senior secured credit facility (our "Credit Facility"), currently restrict us from increasing the rate we pay distributions to our stockholders, and contains other restrictions that limit our ability to pay distributions in the future. There can be no assurance that we will be able to continue paying distributions at the current rate, or at all.
- We have not generated, and in the future may not generate, operating cash flows sufficient to fund all of the distributions we pay to our stockholders, and, as such, we may be forced to fund distributions from other sources, including borrowings, which may not be available on favorable terms, or at all.
- Any distributions, especially those not covered by our cash flows from operations, may reduce the amount of capital available for other purposes, including investment in properties and other permitted investments and may negatively impact the value of our stockholders' investment.
- We are subject to risks associated with any dislocations or liquidity disruptions that may exist or occur in the credit markets of the United States from time to time.
- We are subject to risks associated with changes in general economic, business and political conditions including the possibility of intensified international hostilities, acts of terrorism, and changes in conditions of United States or international lending, capital and financing markets.
- We may fail to continue to qualify to be treated as a real estate investment trust for U.S. federal income tax purposes ("REIT"), which would result in higher taxes, may adversely affect our operations and would reduce the value of an investment in our common stock and the cash available for distributions.
- The offering price and repurchase price for our shares under our distribution reinvestment plan ("DRIP") and our share repurchase program (as amended, the "SRP") may not, among other things, accurately reflect the value of our assets and may not represent what a stockholder may receive on a sale of the shares, what they may receive upon a liquidation of our assets and distribution of the net proceeds or what a third party may pay to acquire us.
